Evaluation Criteria and Submission Instructions

Ola Ka ʻĀina Momona: Managing for Abundance
A joint conference of the Hawaiʻi Conservation Alliance and Society for Conservation Biology, Oceania

August 31st-September 3rd, 2020 Hawaiʻi Convention Center, Honolulu

Session & Abstract Proposal Deadline: February 28th, 2020
Revision Deadline: May 1st, 2020
Deadline for Presenters to Register: July 15th, 2020

*ALL presenters are required to register for the conference. Only presenters with accepted abstracts that are registered by July 15th, 2020, will be considered for inclusion in the program book.

EVALUATION CRITERIA

Note: In contrast to previous years, submitted abstracts will be printed in the abstract book as-is. No revision period is anticipated after the May 1st deadline. At the time of abstract submission, it is the submitting author’s responsibility to ensure that the title, abstract, and authors can be printed for public view.

Your abstract will be evaluated by a team of abstract reviewers based on the following criteria:

1. WRITING QUALITY & ADHERANCE TO GUIDELINES
   Does the abstract meet the following qualifications?
   • The title is brief and clearly indicates the nature of the presentation. Title is in title case without a period at the end. **Do not use all caps. Do not include a period at the end.**
   • The abstract is under 250 words
   • Author names and bios are submitted in the appropriate fields on the submission form (i.e. not located in the body of the abstract text). Affiliations for authors are written out and complete (i.e. Division of Aquatic Resources as opposed to DAR). Authors are listed in order of authorship; no more than two presenting authors selected.
   • Scientific names are italicized
   • Hawaiian diacritical marks are used accurately
   • Acronyms are spelled out on first use
2. CONTENT:

- **Quality of project and abstract**: Abstract clearly states the purpose, methods, results, conclusions, and significance of the work. Work has defensible design and impactful conclusions.
- **Relevance to conservation**: The topic should be relevant to conservation in Hawai‘i and the Pacific region. Integrated and transdisciplinary approaches to research and management and innovative solutions with community and cultural involvement as best practices are encouraged and may be ranked higher.
- **Original work**: Topic and/or results include new or original information or take the next step by building off of previous work or ideas, and are not simply repeating previously presented work. Topics that are innovative or novel may be ranked higher.
- **Relevance to 2020 theme**: The topic is relevant to the theme *Ola Ka ‘Āina Momona: Managing for Abundance*
- **Agenda** (symposia, forums, workshops, trainings): The agenda is complete. The presentations and/or speakers are clearly related to the proposed topic.
- **Audience participation** (forums, workshops, trainings): Techniques for engaging the audience are included in the workshop/symposium/forum description. Innovative approaches to audience participation/engagement are specified, if applicable, and may be ranked higher.

3. **PROPOSED FORMAT**: Is the proposed format appropriate for the content presented? If not, reviewers may suggest another format: symposium, forum, workshop, training, 15-minute oral, or poster. For more information on other formats, please refer to the Call for Abstracts.
