For more information contact Makana Kaha’uleleio, Project Learning Tree
State Coordinator at hawaiiplt@gmail.com or call #808-255-5149.

Project Learning Tree (PLT) is an award-winning environmental education program,
designed for teachers and other educators, parents, and community leaders working
with youth from preschool through grade 12. PLT uses trees and forests as windows on
the world to increase students’ understanding of the environment and
actions they can take to conserve it. PLT’s
instructional materials can be used with
students in formal school settings and with
youth in non-formal settings. Visit plt.org to
learn more.

In this hands-on interactive workshop, participants will:

🌟 Experience PLT lessons
🌟 Discover how PLT lessons can be
incorporated in their classroom or
program to best fit teaching goals
and learners needs
🌟 Network with other educators
🌟 Make connections between PLT
lessons, state standards and STEM.
